QR Code Link to This Post Hello! My name is Florencia and I run a small daycare in Centreville VA, that has been registered with Fairfax County for over 15 years. I have excellent references and offer a safe and clean environment where you little one will always feel loved and respected. I also provide healthy home cooked meals and guide arts and craft projects daily.

I'll have one space available starting January. If you are interested, please feel free to contact me.

Thank you!
