QR Code Link to This Post Minnehaha Recording Company is a professional recording studio located in South Minneapolis, two blocks from Minnehaha Falls and four blocks from the Hiawatha Light Rail Line. We have years of experience and have built the studio we've imagined all these years.

We offer recording, mixing, and mastering services with high-end, professional equipment. We have a great deal of experience in hip hop, rap, R&B, punk, folk, indie-rock, and other noisy and experimental music. The important thing is that your sounds get captured the way you intend.

We have a good collection of vintage and modern mics, instruments, amps, and keyboards that are at your disposal when in the studio.

Check out the website below for photos, equipment, and music samples.

Feel free to email or call to discuss your project and our rates. Please be ready and be serious about your music. We are. Note that this is not a home studio.
