Specs and Features i,,‡

Integrated tube headache rack

Our headache racks are designed with the best and strongest materials to keep you safe when the unexpected happens. Our 3 1/2" x 3 1/2" best in class tube headache racks are second to none.

Super durable powdercoat finishCM Truck Beds coats our products with powder, while many other companies paint. Our powdercoat finish covers every crevice, under every edge, and with a protection to maintain a superior finish and shine for many years!

4" structural steel channel frame rails Our structural 4" channel frame rails are stronger, more durable, and prevent any rusting from the interior of the tube. Furthermore, we don't use roll formed runners, making our structure stronger than any on the market.

1/4" rub rails and stake pocketsProvides your straps and gives you multiple tie down points throughout your hauling jobs.

1/8" steel tread plate deck This strong and long-lasting deck is designed for heavy duty work, withstanding the rigorous work conditions that our bodies are placed under. Compared to other bodies on the market, which use a steel plate and a galvanized floor.

25,000 lbs. rated B&W gooseneck hitch with 7 way round plug standard in class. CM's independently rated bumper pull hitch gives you a best in class towing capacity which is integrated into the entire frame. As a result, no one will ever be able to pull your trailer apart, or deteriorate.

Our wiring harnesses are designed to withstand the light or harsh conditions they are placed under. Our Modular Seal Wiring Harness is designed to reduce corrosion, pulling apart, or deterioration.

CM's independently rated bumper pull hitch gives you a best in class towing capacity which is integrated into the entire frame.

The standard feature allows you to hook on to any trailer and provide quality results.

LED DOT required lighting (clearance and marker lights) When you are backing up, turning, or hitting those brakes along the road, our LED lights will make your truck bed stand out more and brighter! Our LED lights also use less power than conventional incandescent lights.

3" Steel roll-formed 3/16" channel cross members These are the toughest most durable subframe on work trucks.

4" structural steel channel frame rails Our structural 4" channel frame rails are stronger, more durable, and prevent any rusting from the interior of the tube.

Angled Fuel Fill Want to make sure that you don't have issues fueling your truck, check our angled fuel fill which ensures that you won't have to worry about fueling your work truck or splashing fuel back on yourself.

2 -- LED recessed tail, brake and back up lights mounted in headache rack Meaning CM's lights are brighter, and use less power than conventional incandescent lights, that way your stops, turns, tag lights and more will be easily seen and.
