QR Code Link to This Post Hello. I and a classmate who is abroad right now are creating a short film. There is one scene where we have crafted a couple variations, and we want to compare them to see which we prefer. We need someone to play the female role in the scene, and then we will just film each variation acted out so that we can compare them to decide which we prefer. It is a short scene and all can be completed within an hour or so. The ideal person for the role should be between no older than 35, but there is no other criteria. Acting experience is not required. Please contact if interested. \$25 payment upon.
