1998 Chevy S10 truck (1780 USD)

Location **Idaho**
https://www.genclassifieds.com/x-782473-z

QR Code Link to This Post Runs and drives great. No check engine lights on. Has a new clutch, AC compressor and parts (blows really cold), Tires, stereo and speakers. It is also wired for custom rear speakers or subs. Heater will melt your clothes off too. Clean title in hand. It has the 4 cylinder motor so it is better on gas (23-25 mpg). I have a bigger truck so I have no use for this. The truck books for over $2000 but due to a few dings and scratches I have lowered the price. I do have an 801 number but I am local here in Boise and have the clean Idaho title.

If the ad is up then the truck is still for sale. I will delete it the second it leaves my possession.
No trades. Just cash
