QR Code Link to This Post I'm selling my Fender FM212R amplifier. It is a 100 WATT amplifier with two 12' speakers. I am selling it with the power cord, an 18 foot fender cable, and the foot pedal it came with. I have too many guitar products and am trying to clear out some space. Please contact me with serious offers by call, text, or email. Call or text with any questions or offers! I can be available almost any time, but the evenings are better if you'd like to test her out. If you email I will probably take a bit longer to answer. Also, please see my others listings to see what guitars I am selling! Cash.
