QR Code Link to This Post We are a California based company that specializes in brokering and selling women's used panties, bras, and swimsuits. We have hundreds of costumers on the west coast that discreetly buy these used clothing items for their private collections! We have girls that make over \$1000 weekly selling their used panties! Everyone that works with us makes no less than \$100 per hour for the time invested and also covering the cost of the clothing sold!

We are currently looking for more "southern belle" type cuties to market to our customers. We are looking for all race, ethnicity, and body types with that southern charm!

You never have to leave your home, meet anyone, give up any personal identity, or anything unsafe! There will never be any nudity involved!

You would be required to film yourself wearing the clothing. This video is only seen by our existing customers in the southern California area. When the clothing sells, we pay you by wire transfer and you mail the clothing to our office.

Its that simple!

If you're 18-35 years old and you're interested in this opportunity, please text a few current pictures of yourself for consideration.

Text

Thanks...
