QR Code Link to This Post Clover is almost 16.1 hand, 1/2 percheron QH draft mare with a very sweet personality. Will really move out and cover some country when asked but will also go slow and follow behind too. Used for intermediate riders in the arena and as a trail horse for dudes following or lead horse for wranglers and pulling the pack string though she has most recently been a dude and follow horse. Packs, rides english and western used for ranch work and lessons. Will leave the other horses with a confident rider, but again has really been used recently as a dude mare so has a bit more struggles there but has no buck or rear. She will lead and follow, pack and has been around game.

Great for the farrier, used hundreds of miles following, great mother, loving disposition. Easy to catch, load, lead,.
