QR Code Link to This Post My previous assistant just moved out to Denver to start college, so I am looking to replace him. Just be open to do all kinds of work from errands, paperwork, cooking and cleaning around the house, some general yard work, and the list goes on. Just kind of depends what I am needing help with.

No experience needed, just be open to taking direction and helping out where needed.

You can look at the first 90 days as a trial period. I'll pay you \$10 an hour cash. You get paid every time you work. After 90 days you will get bumped up to \$20 an hour.

If you are interested in the position. Shoot me an email and tell me about yourself. I don't need a resume, just give me a few sentences about yourself. Also include a number I can text you.
