QR Code Link to This Post FANCY FISH GUPPIES 30 for \$24 , ---- 60 for \$37, 100 for \$60, ---- 200 for \$100 ( I have 100 maximum at this moment the rest is to small, but will have 200 in 2-3 months...) and FREE 20+ plants ,100s snails( little less if you buying less fishes)... 100 fishes available as of today. LOCATION: Google Coner of Harding and Banta,46217- location. Visit daily 5:30-6:30pm. Call 1 hour prior to visit for house number and google map photo of my 2 story house. If interested give me your direct phone number so I will call with details and arrangements.

-----All my aquariums 50-100 GL size.... Create ecosystem under water and over water world with water plants up to 6 feet tall. Finely your fish will multiply like greasy instead of dying... By visiting me you will gain insides how to do it! If you want just part of the it for less let me know... Fancy guppies. In Walmart , Petco and Pet-smart stores they are \$3 each today! (my...\$0.5 each) See or google other places, they are 10 times more expensive! ( If you would like PLANTS ONLY let me know. They are \$10 (for 10gal) to \$15 (50-100 gal aquarium) depending on size of your aquarium ... I WILL FILL 1/2 OF YOUR AQUARIUM with plants. ) Size of fish on average the same as in store. But remember that 6 -12 months old produce the most of babies(same as people 13 to 25 years old). Because of long selling time and multiple risks involved, I have to charge something... Minimal 30 guppies for \$24. MAXIMUM- 200. I have at least 15 varieties of fancy guppies! Each female pregnant with all of them at the same time. SELF CLEANING AQUARIUM! My pH, (guppies can handle anything from 6.8 - 7.8 (7.0 is ideal) IS 7! Thanks to my plants I clean my aquarium once per 2 months-with 400 to 600 fishes in each 50 GL aquarium, 3 of them with guppies, one with gold fishes and one with green plants. I have strong pump-200 to 400 GPH.= \$5 to \$10 on ebay... and free filters from used up pillows, I will show you... I have started current line of guppies in 1999. Have purchased 3 Females, Since then 1000s of fishes came from them... Each female I sell is pregnant and will produce 15-30 small ones... If you want males or yellow females (only 20 % of mine are yellow body...) , they cost twice more. You will get 70% yellow tail, 20 % pink, the rest white , black blue and combination of colors. All females will produce 70% silver and 30% gold body males and females. Each pregnant from all males at the same time, so you will get the same variety and combination I got in my aquarium. Each produce approximately 50/50 males and females. Please see all pictures for info. Google fancy guppies and read info about them. You will see my set up if you visit! I cant sell few 6-7 years old , very old males because I am interested how long they can leave.

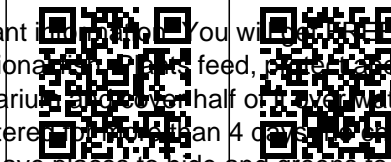

1 mile South of exit 4 on hwy 465, Indianapolis. Coner of Banta and interstate 37 or Banta and Harding. Please google map this sentence for directions . Thanks.

Respectfully yours,

S: Add to my important information. You will see 3 types of guppies under water and over water which I am trying to explain in details what to expect. So it would be very pleasant to have you. I am 63 year old male. I live with my wife in 2200 sq foot house. I am the first and only owner for the last 17 years. Fish cats and birds are my passion. It is NOT my business to hate to do selling. I just have some overpopulation of females silver body yellow tail fish. And this is why I sell mostly only them. At present have only 30% gold body fishes, making more room for them by selling what I got to much. My plan is to have 50/50 silver/gold. Silver females produce better looking males. PLEASE TAKE WITH YOU RECORDING DEVICE OR RECORD INFO FOR 30 TO 50 MINUTES. This is how long it takes for arranging the sale and getting information.

---

Summary of benefits:

1. Money savings in comparison to store -\$40-fish and \$20 plants.
2. Ability to resupply fish for free and give guppies presents to friends or sell them. . .
3. Decrease efforts in cleaning of aquarium-I do it once per few month's - plants do the rest!
4. Beautify aquarium with plants over and under water with pink flowers, see them on some photos.
5. Have nature like appearance of magic when tiny fishes of size 1mm to 80mm swarming around. At one year they are 40mm, at 2 years they are 50mm at 3 years 70-80mm. Lifespan approximately 6 years. I have 50 - 1/2 years old and 30 - 1 years old and 20 older...
6. You can have the same success if you will follow exactly my system . So bring your camera , make pictures of different details.
7. Save big \$ \$ on their food. My fish only eats cheep gold fish food from wallmart. 10 Lbs for \$20 last for thousand of fishes for years! Why? Because they get nutrients from greens! Soon you will have oversupply of plants and fish! They grow fist in 6 months you will have to much and you will have to remove some greens to make space for your fish!
8. Impress your friends, they used to having sick dying fish from store and now you will show them!
9. 100s free small snails.
