QR Code Link to This Post Looking for a home for a 3 year old chihuahua. He is absolutely charming and VERY loving. He would be best in a home that will let pets on the furniture/bed. He likes to snuggle in bed at night. He's good with other dogs and cats. He is excellent with children and has been a companion for 2 children with ADHD. The more love he gets, the happier he is. Long story short, with a changing situation he would be stuck alone in a kennel for close to 10+ hours a day. It would be completely unfair to him. He is neutered and has been treated for fleas. He also has had a 3 year rabies shot but it was at a clinic and we are unable to get records so he will likely need shots redone. He will also have an application of 5lb flea prevention medicine that goes with him. It doesn't have to be used for another 30 days. The only issue we have had with him is going to the bathroom inside when left alone for a long period of time. Understandably as well, seeing as how he has a very small bladder and will likely need to be taken outside often. Please keep that in mind if you decide you want to meet him. We are asking a \$60 rehoming fee for him.

If you are interested, please message me a little bit about the situation that he would be going into.

Note* I am unavailable to drive to meet. Our home is out towards Mccordsville. I will reply to texts.
