QR Code Link to This Post Interested in getting into some lucrative, well planned,.fun work? I've got just the job for us. Here's the proposal:

We work together on landscaping and labor jobs (I've been working alone and with various partners for 6 ys) and you can use me on jobs you get and I'll use you on jobs I get.

You Must have a pickup truck and preferably some landscaping and or skilled trade tools. I don't have the tools just now but if we succeed financially, I'll buy all the ones we need (that you don't have).

I'd like to learn your skilled trade (drywall, carpentry, whtver) and work as a laborer simultaneously, and I'm a fast learner with a good sense of wherewithall.

Pay is 50% of what we make on landscaping and labor jobs, and 70% of what we make on any skilled trade as I'm learning about the trade as I labor as yr helper apprentice.

We can discuss the pay on skilled trade jobs, would most certainly say that on such jobs you'd get the higher percentage, and we can talk.

Anyone with skill, dedication and drive, encouraged to respond, as long as you have a truck and a high energy serious intention to work.

I have a landscaping service we can sign up for that will get us daily work in areas close to us that we choose, but first, right now, we need the funds to get registered with them.

I'll need a few business or personal references and you should have a clean, or plausible, driving record.

We'll do Hauling and Moving as well as landscaping, so its important that your truck is large and in good working order mechanically. You Must be available most or at all times of the week.

This could be the break you and I are looking for! Helping each other out, we procure daily jobs in landscaping, labor, what skilled trade you have, and generally hauling, cleaning, cleanup, and clean-outs. I've done this for years and made a good living on jobs I advertise for.

So Call or text or email and I'll get right back to you.

THANKS!
