QR Code Link to This Post These fine looking dogs had 10 black puppies on November 12th. 2 Males, 8 females.

Male is from pointing lab lines and weighs 60 pounds. Female is also from hunting lines and weighs 65 pounds when she's fit. Both are family dogs that love kids or anyone else that wants to give them attention. Extremely athletic and fast with strong work ethic. These are well bred labs that will have the drive to go all day.

Male has produced puppies that are hunters as well as some that are service dogs. First litter for the female. Both dogs are my dogs.

Pups are AKC registered and will have their first shots. Rehoming fee of \$650. Deposit of \$150 to hold your spot in line. Puppies will be 6 weeks on Christmas Eve but unless you absolutely to have it for Christmas they should stay with the litter until the New Year. January 4th would be perfect.

If you want an amazing lab puppy, look no further.

No males left. Four females available. The deposits received for the first three females are looking for pets only so still plenty of good hunting potential.
