QR Code Link to This Post Just in time for Christmas, now priced to move. This vintage toy was found in a shed on an old farm. Believe this is from the 1970s. The pictures are accurate, and show the wear and tear and any rust accurately. Whether you are a collector of old toys, or want to use it for parts, it's a classic. I can still get this to you in time for Christmas if you contact me soon. I have many more items for sale as well. Just search Craigslist using MHMO and my inventory should come up.

If you have an offer, let's hear it! I tried to price according to fair value, but will consider all fair offers.
