QR Code Link to This Post Trying to become self-sufficient and self-employed through providing a mobile mechanic service for things I have the ability to do efficiently, safely & more affordably than the cost you would pay at a local shop or dealership. You won't be told you need unnecessary parts replaced and if after the initial evaluation I find I am not capable of repairing your vehicle I'll inform you instead of destroying your vehicle and playing with your wallet. I'm not offering engine overhaul with my services but I have the TIME, as well as the ability to repair many things including, yet not limited to;

BRAKES / SHOCKS / COOLING SYSTEM MAINT. / MINOR ELEC. PROBLEMS / CHARGING SYSTEM MAINT. / ENGINE LIGHT ODB II TROUBLESHOOTING.

I will also come to you within the Gulfport, MS and surrounding area instead of you being stuck at a repair shop while your vehicle waits to be repaired. Services offered during the hours parts can be obtained. (8am- 10,11pm).

Thank you for reading and I hope to hear from you.
