QR Code Link to This Post (4) Bridgestone Blizzak 205/60R15 Snow Tires mounted on Borbet Alloy Rims. Very good condition with lots of tread left (see photos). Used on my E36 3-Series BMW for one winter. Sold the car and no longer need.

Removed from BMW 3-Series years 1990-1997 (E36 body). My understanding is that they also fit 3-Series years 1998-2004 (E46 body) and 2005-2011 (E9x body), BMW 1 series (E8x, F20 bodies), Z3, Z4 and Mini Countryman. Please do your own research before purchasing for any vehicle other than the E36.

Will consider delivering along I95 between Houlton and Bangor. Perhaps other areas for a fee.
