I'm in need of a live in assistant to work with me on a project that could last up to 6 months. Pay is \$600 per week plus Bonuses!!

This is a serious offer. If you have the freedom to work together around the clock, live at my location as well as be a companion. This could be a very nice income/housing opportunity. a This type of work isn't hard but it does take a lot of focus and availability.

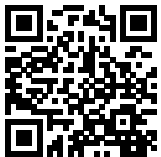

If interested please reply with your name, pics and age.
