QR Code Link to This Post Hi,

We recently are in collaboration with a name in the adult film production world. It's a big name. We are looking for female models in the NYC area, or able to travel to NYC.

YOU: Must be comfortable. Look, this isn't for everyone... we get it. But, if you're interested. We would do a preliminary photoshoot, just to get the green light for production. From there, skies the limit.

You must also be clean. Drug and disease free is important to our team. Please be prepared to be tested post shoot, or be tested in the last 2 weeks by your personal physician.

You must be 18+, we look for all races and all types of women.

You must also have fun. If you're not looking happy on camera, it shows.

You must also be legally allowed to be employed in the United States.

US: As mentioned, we're in collaboration with a name. Your identity and any materials received or filmed will be private until you sign a formal release. Your privacy is just as important as ours. You could make up to \$3,000 a day depending on how many scenes are shot and the type of scene. We are based around the reality market of the industry.

Spots are going to be filled fast, so if you're interested, please send over following:

---	---	--	--	---	--	--	--	--	--

-We are reality based, so phone selfies are fine as they would be closest to the type of material we intend on shooting (video submissions work too)

Any questions, be free to
