QR Code Link to This Post I'm a 29 year old professional female with two well behaved cats and looking for someone to rent out my guest room. It currently has a full size bed and night stand that you can use or I can move. We have off street parking. Laundry machines in building and dishwasher. I don't have cable but I have internet, Hulu and Netflix. 420 friendly. Sadly landlord won't allow dogs or more cats so ideally need someone without pets.

I'd preferably like to room with another professional.
