QR Code Link to This Post I am a 58 year old disabled female in need of either a 1 or 2 bedroom apartment, mobile home or house that allows pets. I have 2 cats and 4 birds. I am a very quiet and clean person who needs a place to live within my budget. I am on disability and have applied for section 8 housing but the lists are years long and in some places closed. Right now I am staying in the basement of someone's house and can not continue to stay here much longer. If you have a place for rent that needs a little work in exchange for lower rent or in a building where you need a building manager, etc. please email.
