QR Code Link to This Post Because you don't end up starving if you're good.....

Let the Music Factory teach you guitar, piano, bass, mandolin, banjo, harmonica, keyboards, organ, violin, and viola. No more learning Bach if you're really into Metallica ...or vice versa.

With 15 years of experience, we are ready to teach you whatever it is you need to reach your goals.

All levels and ages. Weekends and nights available. All music styles.

Music theory, reading, songwriting, composition, arranging, appreciation, we teach what you are interested in, not the things your grammar school music teacher thought you should learn. Fall schedule is filling up, so call now, Vince . References available. No contracts.
