QR Code Link to This Post We are a millwork company located in Plainfield, New Jersey, searching for individuals who are cabinet makers and furniture makers, and are willing to re-locate from the Southern and Eastern part of Texas, where damaged occurred from Hurricane Harvey. We will assist you in finding housing in our area.

Our company primarily cuts hardwood logs into wood boards. We are searching for individuals who can convert this raw wood into custom wall art or custom wood show pieces, furniture, and cabinets. One must have some professional woodworking shop experience for machine operation.

Having a portfolio of pictures would be preferred. We have a shop and work available. We are looking to add a few people, who will work together.

If you are experienced in wood art design with shop experience, we would gladly like to hear from you, as well.

MUST CALL .

Thanks,
