QR Code Link to This Post We will be sharing the room. The room is very large. There is no extra bedroom. This is an efficiency. You get the first 2 months free. There is no deposit. All you have to do is write your first and last name on a paper and you can move in. I am looking for someone who is humble and respectful to be my roommate. If you don't have alot of stuff this will work out just fine as the space is limited. After the the first 2 months if everything works out we can decide on the monthly pricing. We can have the room set up so that you still get your privacy.

You can stay as long as you need to. Please respond only if you are serious about moving in or have questions. You do not have to be on a lease but we can write something up as proof you live in the apartment. The apt is by the courthouse in south Fargo! Laundry is in the building and there is free high speed internet and off street parking. There is a spacious kitchen and bathroom as well. Text Nick @ if you're.
