QR Code Link to This Post I have three heavy duty rope rings with housing designed for recessed installation. These are all "as new", still in the original packaging from Buyers Products Company with their part No 02030 on the packaging, and looking much the same as and probably are the same as their B801A now. The packaging states a SWL of 5,000 pounds. Overstock I never got installed so now I don't need them and you can snag a deal if you need something like this for only \$5 each. Sorry, I only have three of them. Price is \$5.00 each or all three for \$12.
