QR Code Link to This Post For sale by owner. Reliable, excellent running truck. The truck has new rear tires, new starter, cellanoid and battery. Also has a completely replaced braking system. As with any older vehicle there are issues. The truck will need

a complete exhaust system. Including the manifolds. I have priced the parts and it comes out to approx. \$750 . Labor probably another \$500. So if you are willing to put this money into this vehicle you will have a great truck for approx. \$3,700 dollars. If not willing then the inspection sticker is valid until december of 2018. I have patched the manifolds and catalytic converter with furnace cement and it sounds great. Watched a YouTube video and it should last for years. The check engine light is on and I have had it cleared and had the inspection pass. There are no exhaust leaks in it now. It will pass inspection the way it is. I need to be upfront and honest when selling this. It is a fine truck for hauling stuff, mulch or towing a boat . If you have any questions call or email. or .
