Fast growing international marketing company needs college students, advertising and marketing reps, social media experts, salespeople and others to immediately spread the word and help launch a great new company with an exciting new wireless marketing device..

We need outgoing fearless people for part-time/full-time marketing and promotion of our company and sales of our amazing new wireless device. We need enthusiastic students to share this on campus and share with friends/students at other locations for nationwide and international marketing campaign. We also need people with sharp sales and marketing skills for promoting this off campus directly to local businesses. Online sales are also big in our company and social media is a great place to offer this device. Earnings potential is only limited by your effort, creativity, time and contacts..

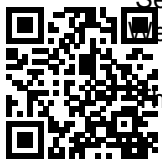

Our wireless device has many useful and valuable applications and millions of prospective customers. Small businesses use it for local advertising/marketing. Individuals can use it for social networking, meeting people, promoting activities.. Students can advertising campus parties and fraternal events. Recent private test marketing showed incredible results, the device worked beyond my expectations. My team is calling it "The most affordable new advertising device anywhere" and we have exclusive rights and a massive un-tapped international market thats ready and waiting for it. Our company was officially launched just a few months ago. This is a serious ground floor opportunity to make a lot of money including ongoing monthly residual income.

Join us now, help launch this company and get paid residual income for years! Start part-time while you work or study. The opportunity is truly unlimited and most people have never heard of our company or this new wireless device.. But they will soon! This is not a job, its an opportunity to become an independent representative with one of the fastest growing new companies anywhere.
