

unclogging basement wash tub pipes (30 USD)

Location **Wisconsin**
<https://www.genclassifieds.com/x-784373-z>

QR Code Link to This Post Pipes in basement wash tubs are clogged. I tried drano and a snake. The snake helped a little but the drano made it worse. I need someone that has plumbing experience that has done this before. Pipe under the sinks might have to be disconnected to clean them out. I rent so you have to really know what you are doing so it doesn't cause worse damage. Call me or email....
