QR Code Link to This Post Does your song need Guitar tracks?

I can record them at my high end home Studio.

I'm professional guitarist with years of experience recording and touring. I've been in major label bands, done sideman work, and played on many songs that have been in film and TV.

I play Electric, Acoustic, and Slide guitar. I also play mandolin and bass.

I have vintage and newer Fender and Vox Amps and lots of guitars: Telecaster, Les Paul, Electric 12 string, Baritone Guitar, P Bass, dobro, vintage Mandolin, nylon and steel string acoustics, and more.

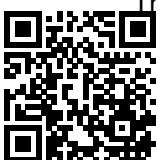

I play Country, Americana, Rock n Roll, Blues, Soul, and even pop.

Here are links to my playing:
