QR Code Link to This Post Hello! My name is Nella and I am an ICU nurse at the Trauma 1 University hospital down in Salt Lake City. On my free time I love to teach ski lessons to families that are visiting the area. I have been a nanny for six years and have taught ski lessons out here for five years. I personally have been skiing since I was three. I have taught a range of ages and ski levels from two year old beginners to adult beginners and adults/kids who are advanced skiers who want to better their technique! Message me for more information and dates that you are interested in! Thank you.
