The giraffe picture lit up our daughters room unlike any other. It's one of those pictures that brings a smile to your face. It was hung up once, taken down and am now posting.

The rectangular house has picture slots to mark your child's heights as they grow. This is an awesome way to mark their strides in a permanent way without having to mark up a wall. Unlike losing this type of memory with a move from a family home, these memories follow you forever. The only picture slots used were the last two from the bottom.

16x20 Giraffe Picture \$30

Long House with Picture Slots \$35

or

Both for \$60
