

Rackmount Server (PLEX NAS UNRAID) Low Power (200 USD)

Location **South Carolina**
<https://www.genclassifieds.com/x-784534-z>

QR Code Link to This Post working server I recently upgraded to enterprise class server. Used as a Plex server but would work for any general purpose NAS or headless server.

- Core i3 CPU (2nd gen)
- MSI Motherboard
- 8GB DDR3 RAM
- NO Hard Drives
- 4U rackmount case (will fit 8 - 3.5" drives and has 3 external 5.25" spots that could be converted)

Only pulled around 60-80W at idle (with 2 drives). Case can handle many more drives and fans if you want to beef it up.

Price firm. Can demo booting.
