Rackmount Server (PLEX NAS UNRAID) Low Power (200 USD)

Location **South Carolina**

https://www.genclassifieds.com/x-784534-z

QR Code Link to This Post working server I recently upgraded to enterprise class server. Used as a Plex server but would work for any general purpose NAS or headless server.

Core i3 CPU (2nd gen)
MSI Motherboard
8GB DDR3 RAM
NO Hard Drives
4U rackmount case (will fit 8 - 3.5" drives and has 3 external 5.25" spots that could be converted)

Only pulled around 60-80W at idle (with 2 drives). Case can handle many more drives and fans if you want to beef it up.

Price firm. Can demo booting.
