QR Code Link to This Post I am looking for female models for an erotic fine art style erotic photo shoot. The idea is to create diptychs --two photos showing two views of the same subject side by side. In this case it is female lips. So I would want a close up of your lips on your face as well as you labia. Nothing more would show in the images, no faces, no eyes, no breasts, not even your body shape so this is open to pretty much anyone, any age and shape. That is the goal, to get as many different ages, races and sizes while recognizing the eroticism and beauty in all.

I am a full time photographer with over 35 years of pro shooting. I spent many years working on a national level and have for the past decade been staying local. I have shot erotic images off an on over the years. I have a limited budget for this but prefer women that would like to contribute to the art in exchange for some photos (additional images can be done per your request) or for the creative experience. Pay would be along the lines of pay for nude models for art classes, not porn pay so if you expect to make a lot doing this, sorry. The sample is cropped from images shot for other purposes so is not exactly what I seek but how things may be.
