Our builder ordered the wrong color for our home. We wanted stainless steel and they ordered black. We used this black model for a week only and then our stainless model was put in our home. Therefore, we are marking down a 99.9% brand new cooktop by \$200 to sell it fast. We are finishing our basement and need to sell this extra cooktop.

Description:

- Gas-on-Glass surface offers a stylish appearance and wipes clean easily
- 17K BTU Professional burner provides the ability to use high-temperature cooking methods such as searing, stir-frying, and wok cooking as well as low temperatures suitable for simmering
- 6K BTU simmer burner allows more accurate simmer control at the lowest setting, and is ideal for cooking smaller quantities of food, using smaller pots and pans
- Electronic ignition - automatically light burners so no standing pilot light is needed
- Full-width cast-iron grates allow easy movement of cookware around the entire cooking surface and have a gloss finish that complements the ceramic glass surface
- Installable over single wall ovens, so you can cook everything in one place
- 17K, 12.5K, 9K, and 6K max BTUs for 4 burners
