QR Code Link to This Post I am looking to get my first floor painted, about 800 sqft that includes hallway, living room, family room, dining room and kitchen. Ceilings were recently smoothed out after removing popcorn. Planning to paint ceiling, walls, stairway, doors and base boards.

Ceiling, doors, windows and baseboard trims will have the same color while wall color will be different. Some patching and caulking required.

I will provide the paint, you need to have the tools, skills and professional experience.
Please provide me a rough estimate for labor and the earliest availability. Responses without rough estimates will be.
