QR Code Link to This Post The tank is a Aqueon 20 gallon long aquarium with reptile carpeting siliconed to the background. It looks really nice and is easy to clean/remove if needed. The top is a Zilla screen cover with locking clamps for security. It comes with plenty of Reptisoil, which is made by ZooMed. It holds humidity well and can be used to house plants. Comes with 2 hides, a nice long branch, dome light with 25 watt nighttime bulb, and a water dish (not pictured). I used it briefly for a ball python, and it worked out great. The entire setup is only 2 weeks old with no signs of wear and tear.

Nate
