Once the grout lines have been cleaned and the pores of the grout opened we apply two coats of sealer which adheres to the grout line and creates a barrier that seals your grout lines so no spills from food, drink, dirt and Grime from high traffic areas (especially during the snowy season) will stain your grout ever again. Also with no pores for the dirt and grime to suck into will make cleaning and maintain your tile much much easier.

we use only the best products in the industry such as polyblend and grout renew which comes in many different varieties of colors
