QR Code Link to This Post Looking to write & record some lo-fi / garage rock. Influences : Ty Segall, White Fence, Fuzz, King Gizzard & The Lizard Wizard, Elvis Depressedly, Car Seat Headrest, Spook Houses, Tame Impala (pre-currents), Meatbodies, King Tuff, Foxygen, Thee Oh Sees, The War On Drugs... ect. I play guitar, bass, keys, bad drums, plugins on MIDI, & can sing (poorly, but who cares?). I have some material recorded, mostly low-quality demos & start riffs / ideas. I can get pretty free to record. Mostly just looking to make stuff to begin with, would like to put out an EP or some decent quality lo-fi.
