I KATHY have been Childcare providers since 1993. We have been blessed with meeting so many wonderful children and their families. We believe that it is important to provide a loving and caring environment for our children so they can grow to become the phenomenal people we know they will be.

\*\*\* contact us for an appointment or to discuss prices.

Here they can play and learn self-respect, respect towards others and safety will be emphasized. A typical day will consist of many fun activities, including stories, singing, free play, arts & crafts, colors, ABC's & 123's. In the playroom there are a variety of activity centers such as a play kitchen, toy tools, mega blocks and other age appropriate toys. The most important priority is to have FUN IN A LOVING AND SAFE ENVIRONMENT so you don't have to worry about your child's well being while you are at work, out shopping or just having a little free time for yourself!
