QR Code Link to This Post Need someone at my job in Pacifica to help out. He will not be required to have experience in skill trade but should be coordinated enough to complete small tasks with little resistance. How much per hour?.....I need someone for 8 hours max but 6 hours min. Job starts tomorrow at 8am. I will send an address after our initial conversation.

Ok some incentives.....whoever ends up showing up to job , and they are on time, professional not scrubby, leaves phone in car, steady work ethic, no smoking, no foul language.

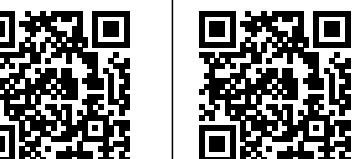

If you can complete all these there will be a nice christmas bonus that will be worth your while at end of day if you stay and work. Additionally I will give him/her \$20 upon arrival to job as a courtesy thank you for allowing us your time and I will buy your lunch. Cash at end of day bring ID. ID is for the receipt process. After I pay you you will sign a letter saying you have been paid in full for your services. After this is signed i will take a picture of it with your ID and My ID. That will be on receipts of cash.
