some of the languages we are highly experienced with are, javascript, java, python, css, php, ruby, c++, c#, asp. Net, shell, and many more.

Experienced in business process automation, technology integration, and business operations.

Get your project done on time and on budget. We don't screw around.

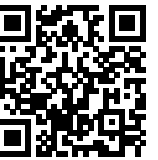

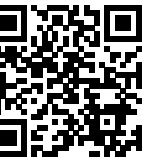

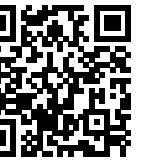

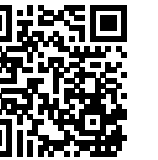

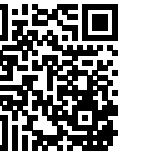

Very reasonable rates as our overhead is low and we tend to work remotely.

Other programming:

applications we can build with are, java, python, c, ruby, javascript, c#, php, sql, and more.

Databases we have worked on include, microsoft sql server, mysql, microsoft access, postgresql, enterprisedb, mongodb, oracle, sybase, sap hana, memsql, sqlite, ibm db2, cassandra, redis crm's we've worked with: salesforce, zoho, act!, ms dynamics, sap, oracle, sage, and many more.

Reporting tools we have worked with include, crystal reports, ssrs, cognos, jaspersoft, birt, active reports, microtrend, tableau, dynamic reports, qlikview, and pentaho. Please contact us to discuss your project needs. Our primary contact is sam.
