QR Code Link to This Post Hello, I run a small home studio in Aurora. I have lots of experience recording different artists, and have had time to master my craft. I can do recording/mixing/mastering, whatever you need. I do most of my process in Studio One, but also have Cubase and can work with that just as well. I charge \$15 an hour, which is significantly cheaper than any big studio here in Colorado, and I can get you recordings and mixes at the same level for cheaper. Since this isn't my main source of income, and I do it for enjoyment, it's why I can charge less.

I have some samples from my band here:

<https://soundcloud.com/pastofashes/cynical-1>

If your interested shoot me a text or email and we can get to work right!
