QR Code Link to This Post Hello!

We're a three piece band who has been around for a couple years here, who just recently lost our singer, due to her moving down to Florida. We're excited to keep going though and decided to start looking for someone new!

We've had lots of experience and played big shows like the Moon Room, Marquis, Moe's, and a lot more.

We're laid back people, but also serious about our music!

We have our own studio space that we run at home, with semi-pro equipment (We're getting there haha)

And we usually like to practice once or twice a week

Take a listen to some of our samples if your interested and let us know!
