QR Code Link to This Post Hello!

We're Past Of Ashes, a traditionally 3 piece band, currently two, since we lost our singer/bass player due to her moving down to Florida. We've decided to keep going as a band and look for someone new!

We've had lots of experience and played big shows like the Moon Room, Marquis, Moe's, and a lot more.

We're laid back people, but also serious about our music!

We have our own studio space that we run at home, with semi-pro equipment (We're getting there haha)

And we usually like to practice once or twice a week

Take a listen to some of our samples if your interested and let us know!
