Description This charming 4+ bedroom, 3.5 bathroom with additional office space AND bonus room will have you in AWE! Spectacular views of the lake throughout the entire home, great natural light from the abundance of windows and a gorgeous 1000+ square foot deck wrapping around the middle level of the home.

This home offers 4,400 square feet of fantastic living! Kitchen was recently remodeled adding in granite counter tops with dual ovens for some serious cooking! The kitchen provides an eat in area along with island seating in addition to the dedicated dining room. There are vaulted ceilings in the main living area with dual ceiling fans, cozy up next to the two- sided fireplace or relax in the master bath Jacuzzi... the options are endless! This 3 story home has a walk- out basement with french doors to the yard and dock area. The basement features an additional fully equipped kitchen, den for entertainment and additional space to do with as you please!

If you enjoy tinkering and when you're not out on the lake fishing, you'll love the 2 car garage with plenty of room for your vehicles and enough space to work in...you could even store a boat or two in the garage! Additional driveway parking available for vehicles and other personal toys.

Beautiful back yard, lake front on Upper Wasilla Lake with LOTS of grass area and cedar block pier to lead you down to the dock. Huge yard to BBQ and host summer events with tons of storage space.

Some have a look at this stunning place before it's too late, a place like this won't stay on the market for long! Call to schedule a showing now!
