QR Code Link to This Post This Anderson door is a full glass or full screen (comes with both) door, with a white closer and a bronze handle. I ordered this door and ordered the wrong color for my house. The door is still in the box with all parts for an easy install and is a right handed swing, 96" (8 feet) tall and 36" (3 feet) wide storm door. Brand new and excellent condition, I need to get it off my hands so I can purchase the correct color. Please call or text, cash or Paypal.
