QR Code Link to This Post Kiska is a Pure Black and Silver German Shepard. Her parents are REG with the AKC and I have kiska papers so she can still be REG. I never bothered to send in her papers because I wasn't into showing or breeding her. Her parents are police stock dogs and Kiska is a VERY smart dog.

It only took a day to train her to nudge the bell on the door to let me know when she wanted to go outside.

She's going to be 7yrs old this Dec and is spayed. She's been a farm dog and is good at guarding the home and animals. Her appearance alone is enough to intimidate people:)

When Kiska was 1 she was mistaken for a bear, was shot at a few times and wound up losing a leg. We tried to have the leg saved but the damage from the bullet was to extensive.

She's needs a home where she can be the ONLY dog and have all the attention. She might do well if there was one other small dog.

Kiska is very good around kids and cats!

I'm having to re-home her because she's finding it hard to get along with one other dog we own.

Rehoming fee 100
