QR Code Link to This Post Hi there! I'm an entrepreneur and have two businesses. I'm looking for some all around help. Duties may include: social media (I will teach you how to gain followers etc.), resourcing, and one-off business centric tasks. Duties will also include things like cleaning up the house, taking our dogs (two Australian shepherds) to the dog park or on a walk. Picking up random things from the store etc.

This is the opportunity to get ground-level on two start-ups and a potential to earn equity down the road. The hours will start up low (10 per week) and go up as needed. Availability must be Monday through Friday between 10-5PM. Must have a car.

Requirements:

Great attitude

Good sense of humor

Good work ethic

Please send resumes, with your available start date and why you think you are good for this!
