QR Code Link to This Post Hello everybody! I am looking for a puppy to train as a service dog. I sadly had to wash out my current service dog as he was diagnosed with epilepsy which really toke a toll on my mental health (wash out means he cant be a service dog anymore). But with my disabilities I still need a sd (service dog). It needs to get up to around 100lbs full grown and can be a mixed breed dog. My current top 4 dog breeds to choose from would be a Newfoundland, rottweiler, Great Pyrenees or a Anatolian Shepherd. But that does not mean I wouldn't look into other breeds. A plus is if the parents are health tested. If you have a puppy or know of someone please message me. Money is not an issue but I would like to buy a puppy around January. Thanks for reading and I hope to hear back from you. I added photos of my retired service dog as well. I wouldn't like to spend more than 500\$ but will go higher if purebred and parents are health.
