QR Code Link to This Post Looking for someone to help me with cleaning out rentals on a part time basis. The work is not that complex as areas to clean are not too filthy with me helping on the nights or weekends only. Dont be worried about the cleaning items because it will be provided, you just have to be there and do the job.

State your name and contact number along with your anticipated salary. Also let me know a bit about yourself and why I must employ you. You will receive your payment in cash every day.

Thank.
